

Technology Professional Learning

During and After School Support

We look forward to supporting your interests and needs with technology. Join us for a session or request support on any topic in your classroom at your convenience. It's up to you.

- Getting started with a Maker tool like the Cricut is easy. And if you learn to use it--your students can too. We have Cricuts in the Maker/STEAM spaces at RIS, RMS and RHS. Ask Jack Adams, Laurie Wilson or Patricia Aigner for help and assistance.
- Get up and running with Remind to engage parents and kids through texts and images.
- All things Google including App Smashing

Location	Topic	Date	Time	We'll Have	Bring...
Longfellow 2 nd Floor STEAM Space	Decorating, Labeling and Organizing Your Classroom with a Cricut Cutter—Vinyl, Window Cling, Paper and more (Cricuts are available at RIS, RMS and RHS)	January 30 th 2020	3-4:30 drop in	Cookies, Coffee, Tea and Free supplies	Your laptop

Your classroom	Your Technology Topic	How can we help you? Let's schedule an appointment and get started. Email Patricia Aigner and we'll figure out the next step.			
Your classroom	Greenscreen in your classroom (I bring everything to create video in your classroom. You provide a space and children to engage in this exciting project.)	By appointment during or after school. Oct-June	at your convenience email Patricia Aigner		
Your classroom	Book Creator (Your students and you can create online books that will read aloud, insert images and YouTube video)	By appointment during or after school. Oct-June	at your convenience email Patricia Aigner		
Your classroom	Remind Support- Parent and Student Engagement App	By appointment during or after school. Oct-June	at your convenience email Patricia Aigner		
Your classroom	BeeBots and Grades K-2 Bee-Bot is an exciting little robot designed for use by young children. This colorful, easy-to-operate, and friendly little robot is a perfect tool for teaching counting, sequencing, estimation, problem-solving, and just having fun!		There are great resources on the web, see Pinterest, YouTube and more for Bee Bots. Ask your K2 STEAM coaches at NE and NW Summer Lambert and Jen Pew for some ideas and a demo. Ask them about Ozobots too.		
Your classroom	SMART Notebook Support Grades K-2		For SMART Notebook instructional support K2 contact Val Clark and Leah Abatiell our SMART Notebook coaches.		

Some resources for you:

[Book Creator](#) We are testing this out, so far it is great!

[WeVideo](#) We have a district account for 350 teachers and students.
